

THUR. MAY 7 @ 6 PM

HUMMINGBIRDS : WONDER ON WINGS

Join Joe Callanan, Natural History Educator & Wildlife Photographer for a one-hour presentation about the Ruby Throated Hummingbird. Enjoy exciting and dramatic images of these tiny birds captured by his photography.

Joe will reveal the intimate details that he has been blessed to witness as we learn all the incredible capabilities these amazing creatures possess.

Hummingbirds are fun to draw in with feeders, but Joe has learned where to find them in the wild. His encounters will transport you out there with him as you come to understand how wonderful these little feathered jewels' lives are.

Take a break from your routine. Come explore the wild side of one of the most spectacular visitors to our local woods during the summer. Let some of their magic and mystery inspire you !
