

Treasurer's Report

6/16/19

May was another month with little activity of note in our accounts. After a strong April rally, the value of our Charter Trust assets did drop by nearly \$9K in May. However, for the period January through May, the library still had a strong net income of >\$24K. As we look ahead to the prospect of continued volatility in the market, I suggest we get our Charter representatives here to a BOT meeting soon to discuss our allocation and give us a market update.

Respectfully submitted,  
David Paige
