15 GREENWOOD AVENUE | CONWAY, NH 03818

Tessa and Jeff staffed a Community Resources table at the Kennett Middle School Open House to talk with students and their parents about attending afterschool programs and using the Library.

The Library will be participating as a Host Organization in THE Valley Race, taking place on October 17th & 18th. Race teams will complete the “Dewey Dash” on Saturday morning.

Drea has been instrumental in supporting and continuing to grow our Robots & 3D Printing Club on Thursday afternoons. As the school year gets underway, we are seeing as many as two dozen kids creating 3D designs and building their own robots each week.

Sherri has continued to have success partnering with other libraries to offer virtual programs for our patrons. In September, she scheduled two events; exploring the history of death and morning in western civilization and the science of fall foliage.

A small kitten was found under the rhododendron bushes on the Main St. side of the building. Library staff have been caring for the kitten while we search for the owner. Patrons have taken very fondly to little Edgar Allen Poe, and if no owner is found we plan to adopt the kitten to visit the library for story times and other programs.

Work on the Book Plaza has been completed by Miracle Farms. We expect the site lighting and pavilion structure to be installed by November.

Respectfully submitted,

Jefferson M. Beavers
